

Pediatric Brain Tumor Support Group  
of  
Southern Nevada

The

# Brain Trust

## OUR PURPOSE

Learning you or a loved one has a brain tumor is a trying and traumatic experience.

**We have been there and are here to help.**

Often people want more information and some one to talk to.

**We offer resources, answers, and support to patients and families dealing with pediatric brain tumors.**

## OUR TEAM

We are a dedicated group of **survivors, family members, friends, medical professionals and educators.**

While our group is in its infancy, we have a strong foundation of dedicated supporters.

**Together we know how to cope, live with, treat and beat the health issues that accompany this diagnosis.**

**Special thanks go to:**

**Charli Carter  
Carter Powersports**

**Dr. Ronald Kline  
Pediatric Oncologist &  
Hematologist**

"This group empowers both patients and families affected by pediatric brain tumors with information and support in an open forum to help them deal with the issues they face. From diagnosis to treatment and recovery to beyond, we are here to help."

- Devin O'Day  
Brain Trust Founder
